

SCHOOL PROJECTS

Here below are projects I've worked on when I took Graphics design training at Addis Ababa University in August 2024.

School Projects - Graphics Design Training at Addis Ababa University (July 29th to Aug 3rd, 2024)

Project 01: Book Cover Design - A Solitary Journey

In this project, I designed a captivating book cover for a fictional story that follows the journey and lifestyle of a lonely person in the wilderness. The cover was intended to reflect the themes of isolation, introspection, and the raw beauty of nature.

Project 02: Energy Drink Branding and Advertisement

This project involved the development and advertisement of an energy drink product. I was responsible for creating the product concept, naming the energy drink, and designing its logo. Additionally, I designed a business card and an advertisement banner to visually communicate the brand's energy and vitality.

Project 03: Participation in Various Projects

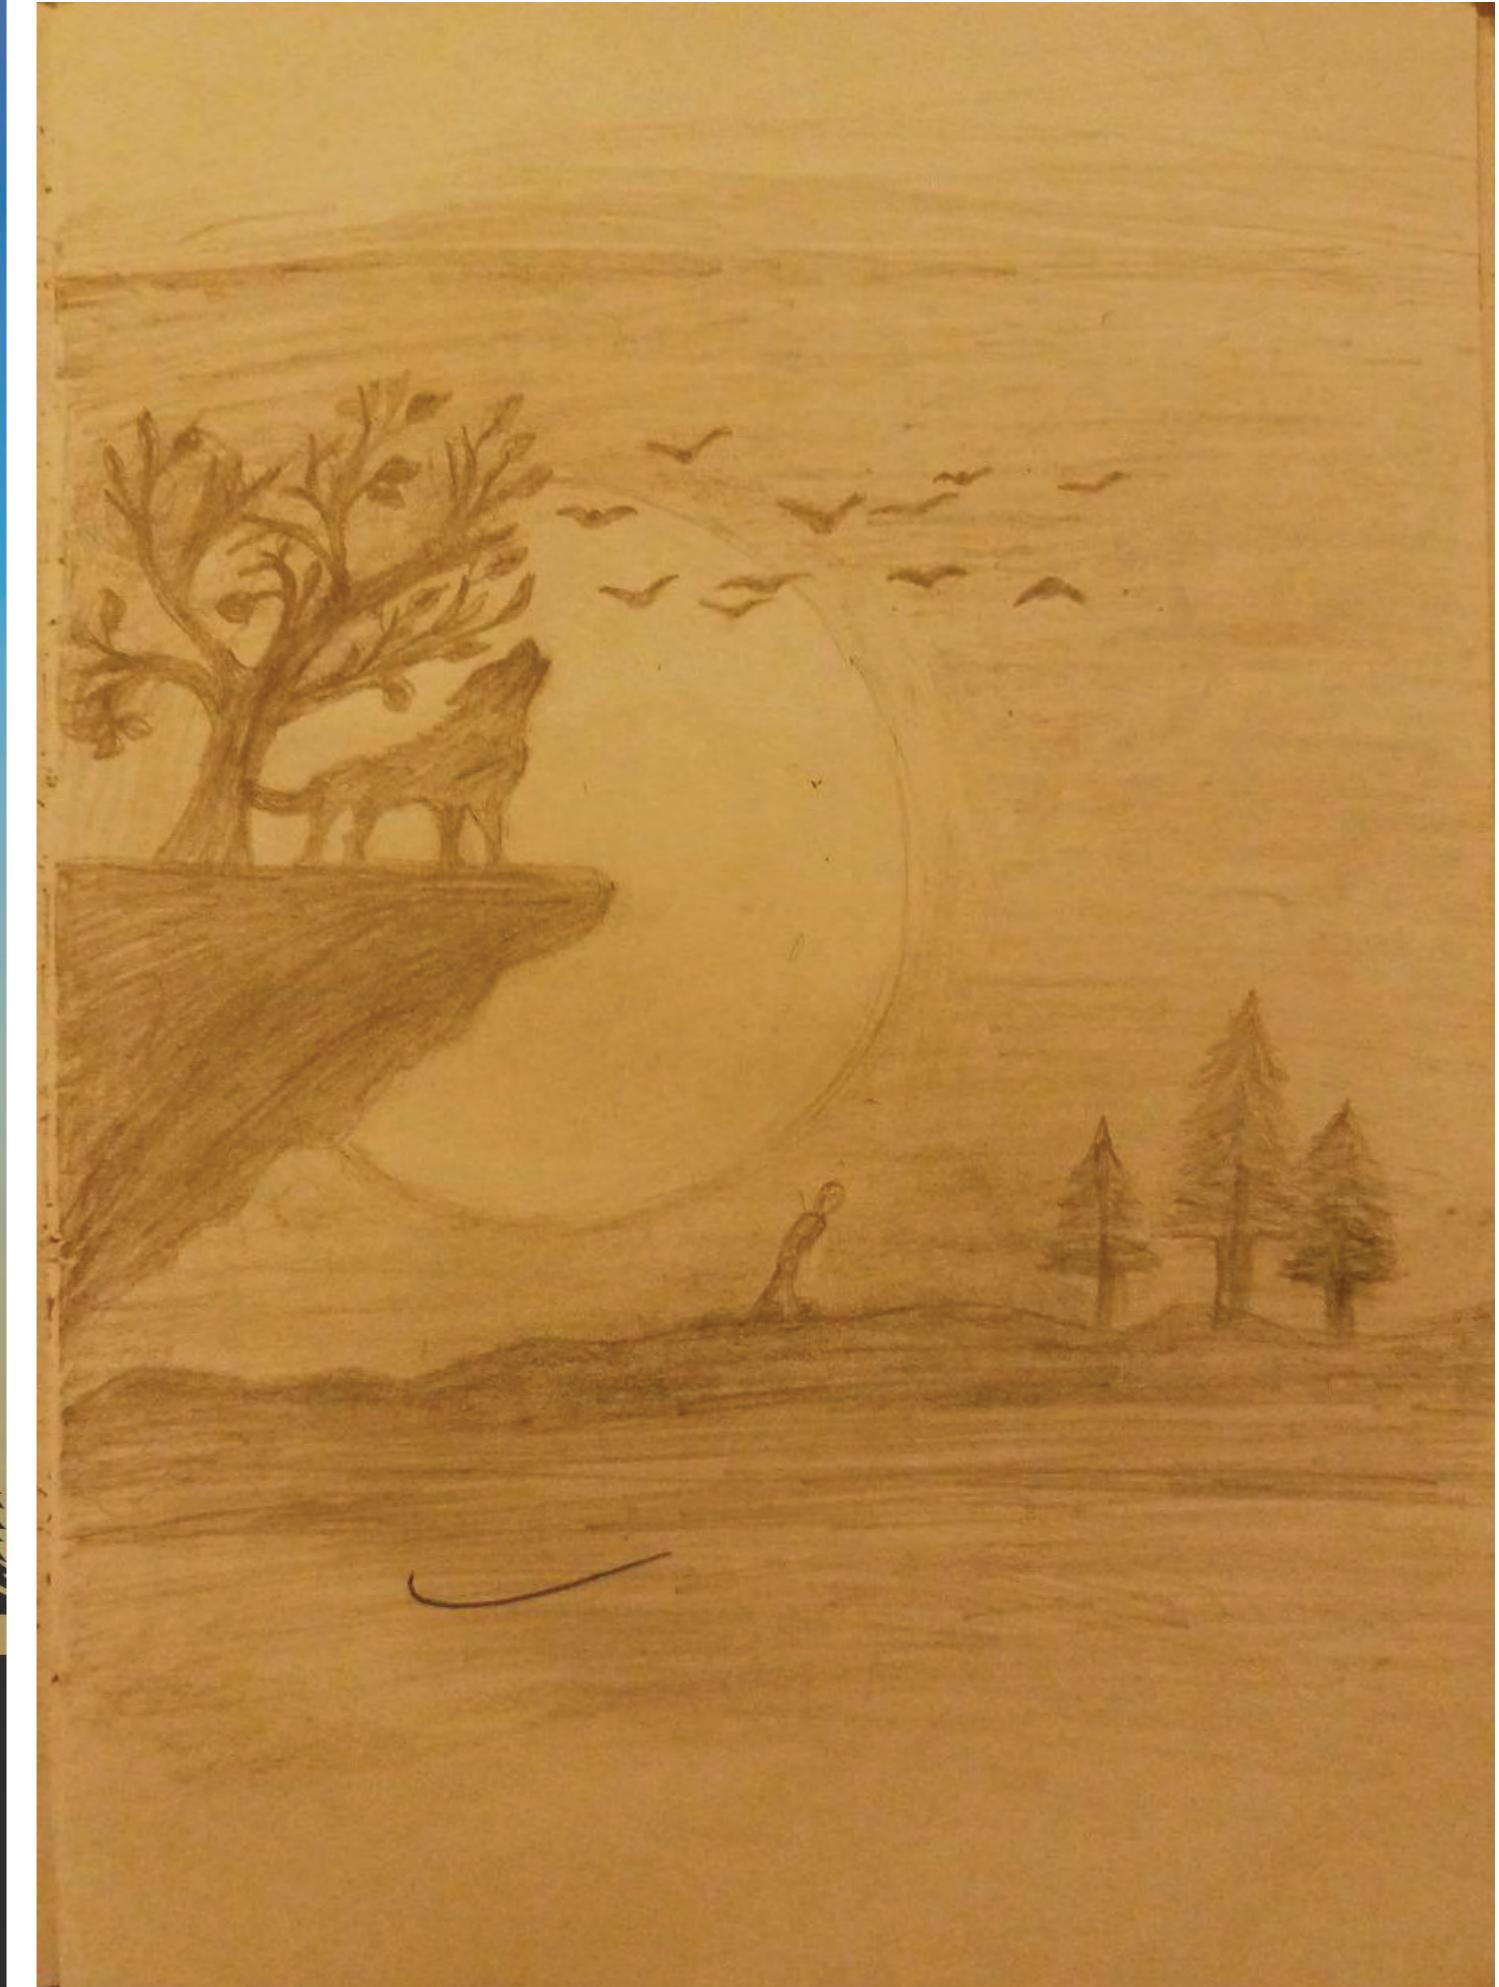

Throughout the training, I took part in various collaborative projects. These experiences allowed me to explore different aspects of graphic design, enhance my skills, and subsidize creativity in diverse design contexts.

LOST IN THE UNTAMED

WHISPERS OF THE WILD IN THE SILENCE

AUTHOR NAME

BOOK COVER

TURBO ပြောလန်လန်

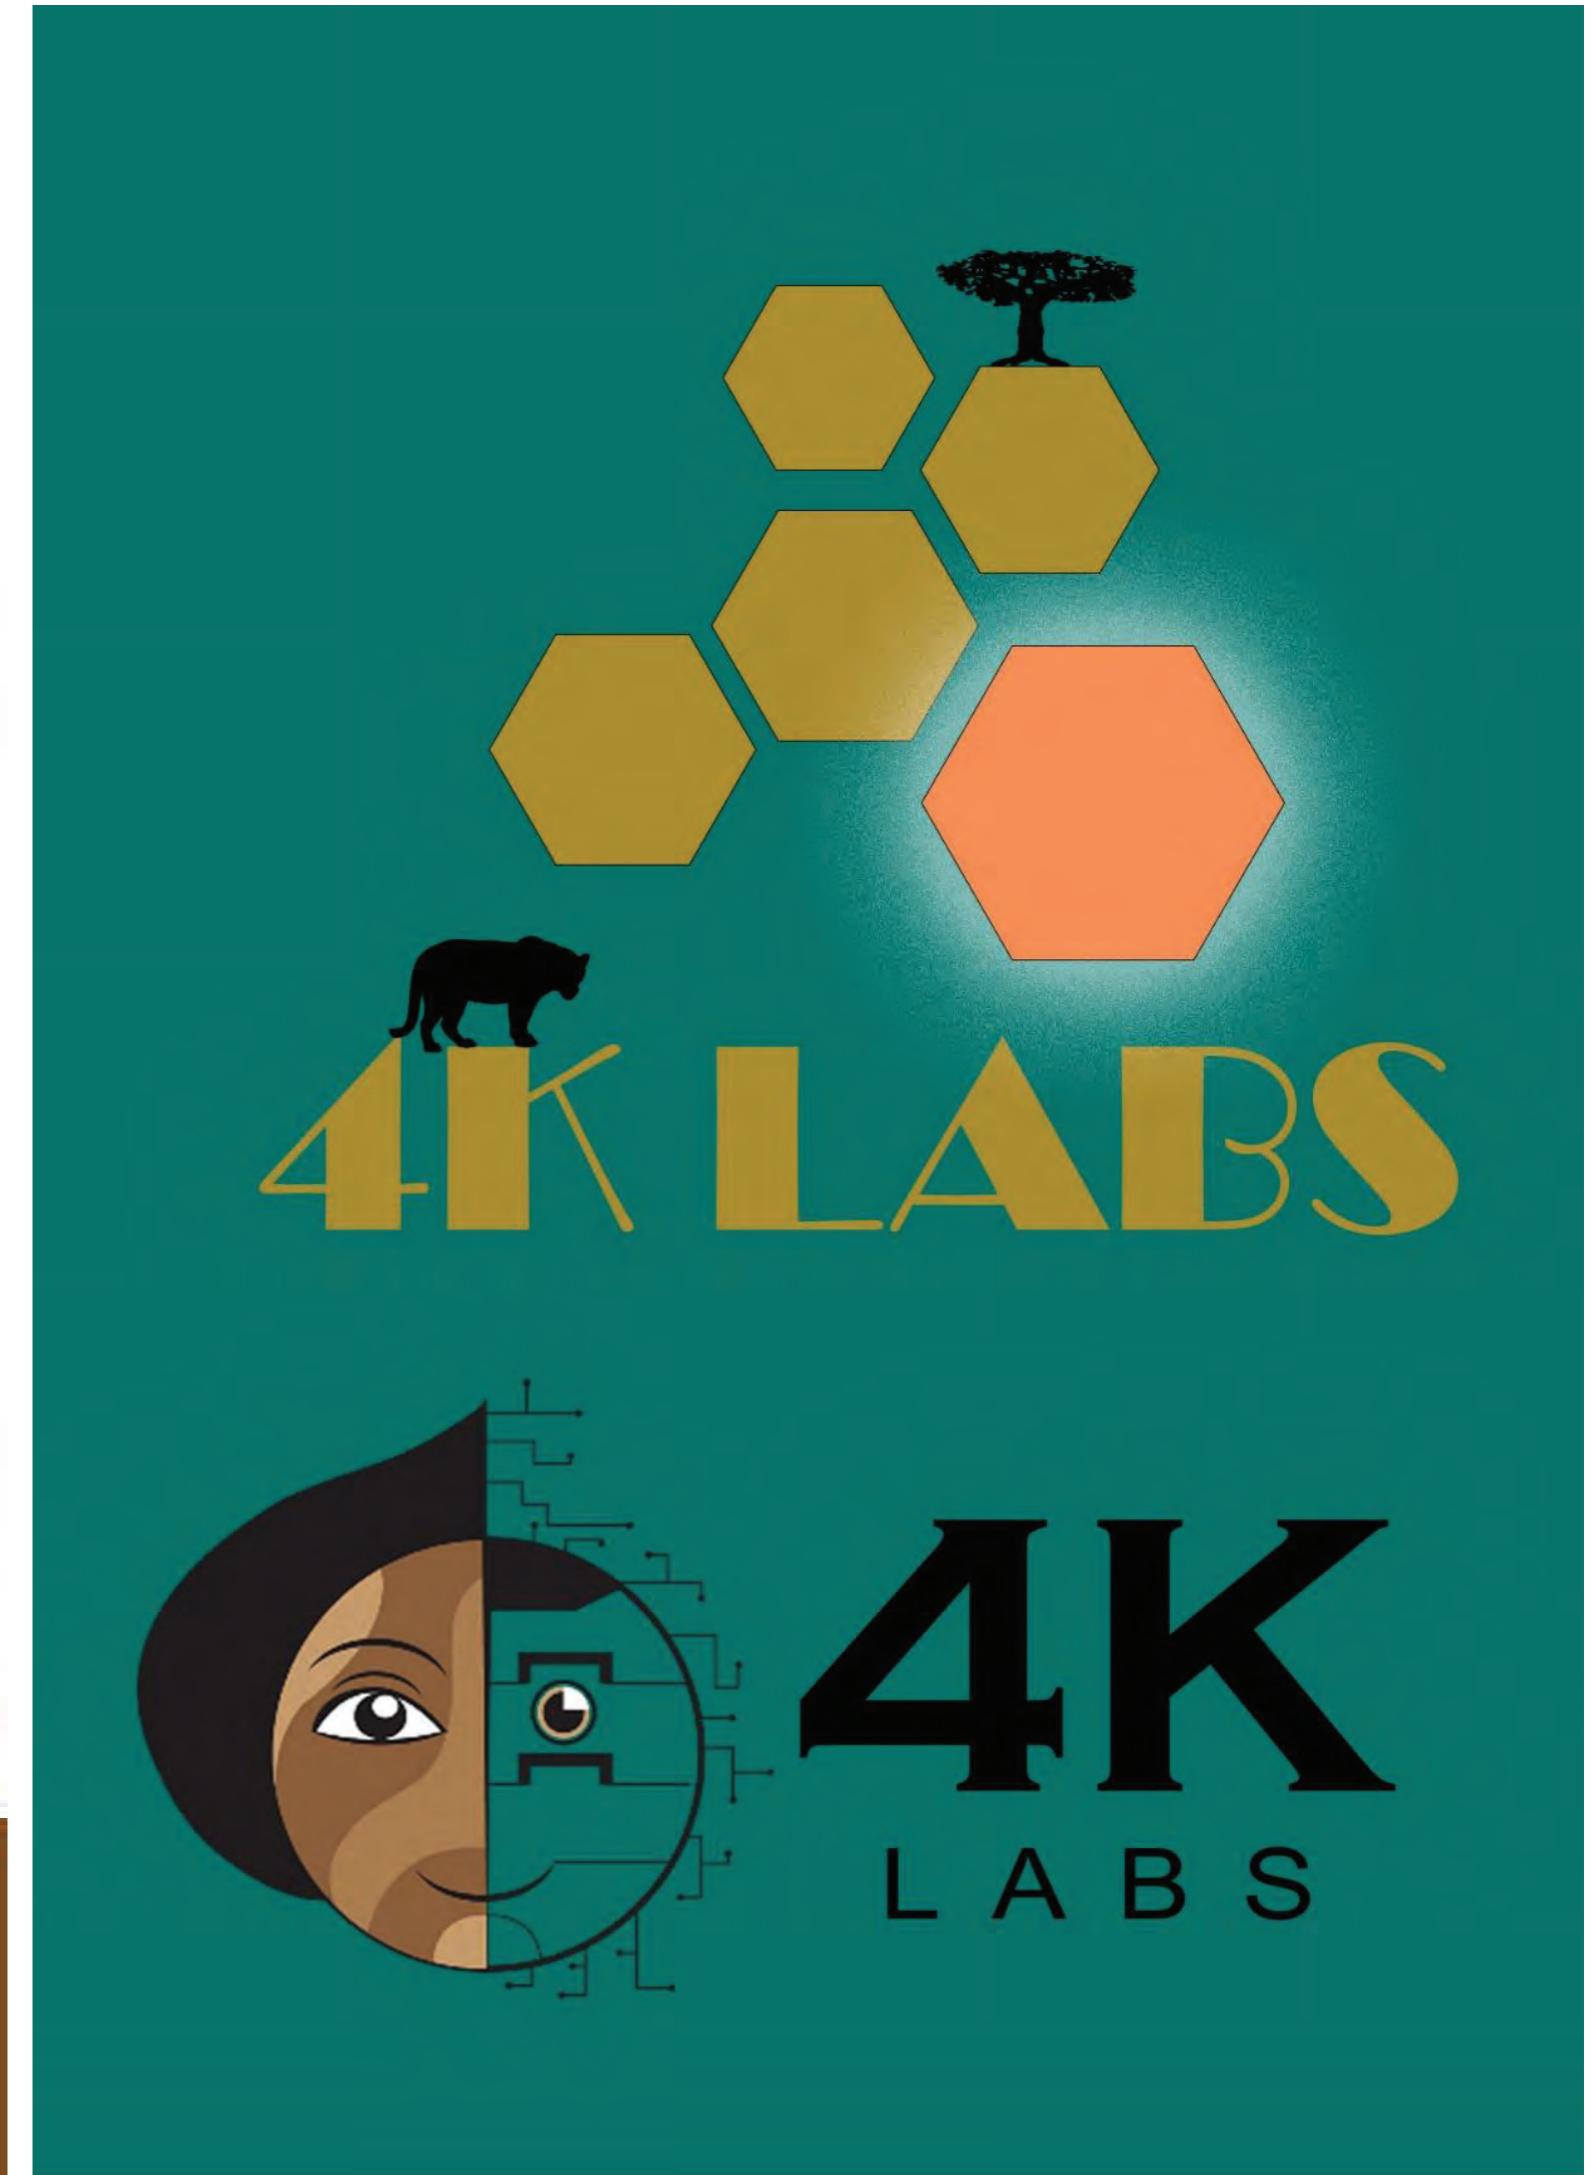

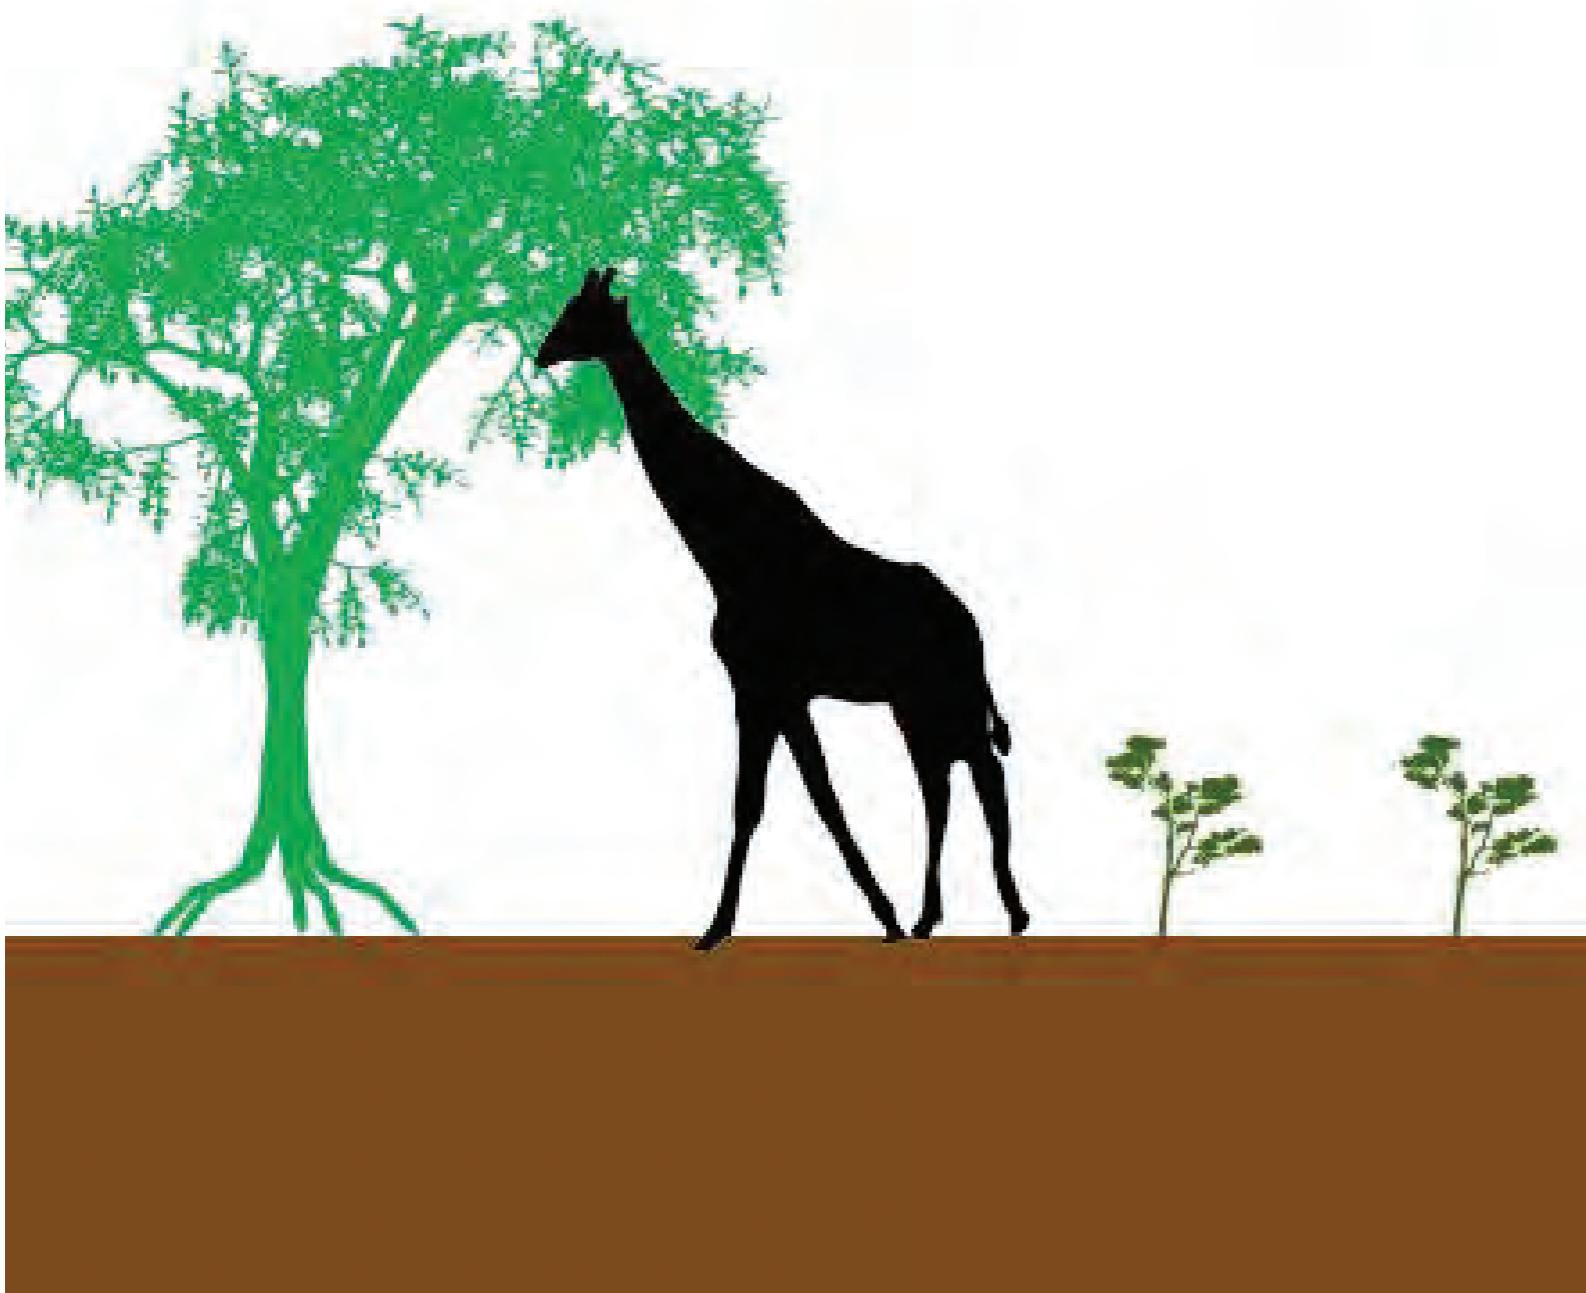

Low Sugar Content
Eco-Friendly Packaging
No Artificial Additive
Rich in Essential Vitamins
Natural Sweeteners
Cholesterol-Free
